Assigned Routes Management and Overview

Employees who travel daily log their routes in the system, while all other colleagues have centralized and clear visibility of who is going where that day — making it easier to coordinate contact or logistics related to that city.

A screenshot of a mobile application interface for route management. The app has a white background with blue accents. At the top, there is a header with the 'CONTROL SYSTEM' logo and a hamburger menu icon. Below the header, there are two main sections. The first section is titled 'Филтер по недела' (Filter by week) and contains a date picker labeled 'Избери недела:' and a blue button labeled 'Филтрирај'. The second section is titled 'Додади рута' (Add route) and contains three form fields: a date field labeled 'Датум:' with the value '2025-05-30', a vehicle field labeled 'Возила:' with the placeholder 'Избери возило или додади ново', and a city field labeled 'Градови:' with the placeholder 'Избери градови или додади нов'.

Route Planner and History in Calendar View

All daily, weekly, and monthly routes are clearly displayed in a calendar, with the option to generate reports for any selected period. Management and the team have clear insight into movements and activities — all in one place.

The image shows a smartphone displaying the Control System website. The header features the company logo, the name 'CONTROL SYSTEM', a moon icon for dark mode, and a hamburger menu. The main heading is 'Побарај понуда' (Request Offer). Below it is a form with four input fields: 'Име и презиме' (Name and Surname), 'Е-маил' (Email), 'Телефон' (Phone), and a larger text area for 'Опишете ги вашите потреби за персонализирана апликација...' (Describe your needs for a customized application...). A yellow 'Испрати' (Send) button is at the bottom of the form.
